### Bharathiar University

The Bharathiar University was established at Coimbatore by the Government of Tamilnadu in February, 1982 under the provision of the Bharathiar University Act, 1981 (Act 1 of 1982). The Postgraduate Centre of the University of Madras, which was functioning in Coimbatore before 1982 formed the core of the Bharathiar University. In May, 1985 the University received the recognition from University Grants Commission (UGC), New Delhi for the purpose of grants.

The University named after the great national poet **Subramania Bharathi** is enshrined with the motto "**Educate to Elevate**". In the University, every effort is harnessed to realize his dream of making educational institutions as temple of learning. It is the aim of the University to participate in the task of inculcating necessary Knowledge, Skills and Creative Attitudes and values among the youth of the country to contribute more effectively towards establishing an equitable social and economic and secular ideal of our nation.

### Arignar Anna Central Library

The Library of Bharathiar University was established in the year 1981 at the Madras University Autonomous Postgraduate Centre of the University is an area of 11,750 sq.feet. The seating capacity currently is about 300, and has over 1,78,689 volumes covering all disciplines. The library subscribes to 143 National and International journals and eleven leading news papers. 150 journals magazines and periodicals are received on gratis.

Back issues of journals are available some dating back to 1880's. Photocopying facility is also available inside the library.

The university Library is a member of UGC - INFLIBNET - INFONET E-Journal Consortium. Separate internet connectivity is available to access more than 11,000+ titles of journals from 28 National and International publishers and aggregators through 40 Systems in the UGC-INFLIBNET Digital Library e-Journal Section.

### About the Workshop

The word scientometrics was first coined by Vassily V. Nalimov & Mulchenko in 1969 in the Russian equivalent. The term "scientometrics" defined as the "quantitative study of science and technology" Nalimov explained all quantitative aspect of the science of science, communication in science, and science policy.

**Online web-based bibliographical databases**, such as Scopus, CiteSeer, Google Scholar or NLM's MEDLINE are common sources of data for bibliometric research. Many of these databases have serious problems and usage limitations since they were mainly **designed for information retrieval**, rather than for bibliometric analysis. In order to overcome these limitations, one common solution consists of downloading data from online databases, cleaning it and storing it in customized format.

### OSS for Bibliometrics /Scientometrics

- ★ ISI Web of Science
- ★ Bibexcel
- ★ HistCite
- ★ Publish-or-Perish
- ★ VOSviewer
- ★ Pajek
- ★ SciMAT
- ★ CiteSpace II
- ★ Science of Science (Sci2) Tool
- ★ UciNET
- ★ NodeXL

### Target Audience:

Library Professionals, Research Scholars and Knowledge Seekers.

### Resource Persons:

Library Science Professionals from Reputed Universities, Scopus and Capital Line Database Experts.

### Registration

- ★ Registration Contact - **Organization Secretary**
- ★ Bharathiar University Scholars Rs.200/-
- ★ Others Rs.400/-
- ★ No Spot Registration
- ★ First Cum First Serve
