

Bioinformatics

- ❖ Curriculum feedback on M.Sc Bioinformatics of 2020-2021 from students and Alumni were sought. They have given good scores for the content and hence no revision was done for the year 2020-2021.
- ❖ Teacher's feedback reported the difficulty of LMS platform Googlemeet which they are using. Each faculty member having their own link makes it difficult to retrieve the recording and other common activities. Therefore a common platform was informed to the Registrar.
