

Environmental sciences

- ❖ Feedback was received from all stake holders for the syllabus of M.Sc. Environmental Sciences. There was a major revision 2020-2021, which was appreciated by all and few changes were suggested. Based on the feedback and new development in the syllabus were revised.
- ❖ In view of the industrial requirement and based on Employer's feedback, two new programs entitled Industrial Ecology and Air quality monitoring which focuses on employment opportunities started during this academic year.
