ACTION TAKEN REPORT

ACADEMIC YEAR
2017-2018

Action Taken Report- 2017-18

1. To motivate and cater to the exceptional needs of the **students** who are advanced learners, the lab facilities in Science departments are made available for them. The students are allowed to explore more on research and gain hands-on experience under the mentorship of research scholars after the class hours. This motivated them to pursue research at our campus. This motivated the students to pursue research not only at our campus but also in other Institutions. On an average 3 to 4 students are benefitted in each class.
2. Based on **Teachers** feedback, in order to seed thoughts on social responsibility and human values among students, several social events such as tree plantation, garden maintenance, blood donation camps, etc., have been organized for which University has provided funds and facilities.
3. Based on the feedback of female **students and teachers**, it was recommended to strengthen and popularize the Internal Compliance Committee to address the harassment if any faced by female in the University campus. In this connection, ICC policy was framed and the committee details were shared to all department facilitating the female to feel safe.
