ACTION TAKEN REPORT

ACADEMIC YEAR
2019-2020

Action Taken Report- 2019-20

1. The **employers** offered their feedback on the lacunae of skillsets for the employed students who had to undergo training in the industries for acquiring them. This feedback was taken seriously and to provide skillsets to the students Industrial training like internships and Industrial project training are made part of the curriculum wherever possible since 2019.
2. Based on **Alumni feedback**, to enhance skills, employability and professional competency, value added courses addressing various professional skills are introduced in the curriculum since 2019 onwards. More number of these value-added courses are offered as choice to the students facilitating them to select courses based on their interest and requirement for their future career.
3. Based on the **feedback of students and teachers**, it was recommended to improve the canteen facilities in terms of space and separate space for staff. New building with more seating facilities was constructed and put into use from 2019 onwards.
4. Based on the feedback from **Alumni, Subject expert and Industrial Expert M.Sc Environmental Science** has revised the syllabus about 58%, This revision caters the students with latest developments and upgrades the technological aspects pertaining to the field.
5. Based on the request of **Teachers and Alumni**, training for students on Sophisticated Instruments is recommended and establishment of Common Instrumentation facility is suggested. DST-PURSE funding shall facilitate in procuring sophisticated equipments which shall be housed as common facility providing access to all. Under DST-PURSE, LCMS, NMR, Confocal Microscopy, DNA sequencer, TEM, etc., were purchased. With the National visibility through I-STEM portal registration, it is expected to cater to the needs of more than 100 students per month.
5. Based on **Teachers and Student feedback** on Research Projects, establishment of a separate division/office for processing External funded research projects was

recommended. The office is expected to conduct training to students and scholars on proposal writing and paper publications.
