☆

☆

- Based on the requisition from alumni new programme M.Com Financial Technology was introduced in the academic year 2021-2022. This program is aimed at to explore the different financial technologies and learn how to adapt to them and use them in one's career.
- Based on feedback of teachers and students, a common LMS platform for all departments is recommended. Even though individual departments are having their own platform like Google classroom/Microsoft team, the availability of teaching material in common platform was difficult. Moodle based platform is suggested to be established as common facility. (2022)
- 3. Based on **Teachers and students feedback** to improve evaluation pattern which gives weightage to One-time assessment (final examination), a new pattern of evaluation was introduced. For giving more weightage for Continuous assessment than the One-time assessment, ratio altered from 75:25 to 50:50 was approved and implemented in 2021.
- Based on the feedback from Alumni, Subject expert and Industrial Expert M.Sc. Biotechnology has revised the syllabus 51%,
- 5. In response to the feedback from teachers and Alumni, the need for website reconstruction was recommended and the process was initiated. The profile of all faculty members is uploaded in the website along with other activities like Bharathiar University Centre for Industry Collaboration (BUCIC), Centre for Research and Technology Development (CRTD) and Centre Instrumentation Centre (CIC).

The Director IQAC Bharathiar University
